FEATURES STORM WATER POLLUTION
PREVENTION**

San Diego -- April 24, 2002 - The City's efforts to reduce beach closure 50 percent by 2004 are featured in the April issue of San Diego Home/Garden Magazine's Issues column. The article focuses on the Storm Water Pollution Prevention Program's public education and enforcement activities. In addition to outlining the regulatory and legal framework surrounding the issue, the article points out several useful clean water tips to help residents prevent storm water pollution.
